

Letter of Recommendation

Gladys Mawarni

To Whom It May Concern,

I am very pleased to recommend Gladys for any role in digital PR where research capability, attention to detail, and a genuine breadth of contribution are valued.

I worked with Gladys for more than a year, and across that time she proved herself to be one of the most thorough and reliable members of the team. Her primary focus was research, and she approached it with the kind of rigour that makes a real difference to campaign quality. Good digital PR stands or falls on the strength of its foundations, and Gladys consistently delivered research that was well sourced, relevant, and genuinely useful to the work being built around it.

What made Gladys particularly valuable was that her contribution did not stop at research. She also worked across coverage hunting, media list building, and campaign ideation, which gave her a well-rounded understanding of how digital PR actually functions end to end. That broader involvement made her a more considered researcher too, because she understood how her work fed into the wider process and what the team needed from it at each stage.

She is diligent, curious, and someone who takes ownership of her work. I would recommend Gladys without hesitation to any digital PR team looking for a dependable and versatile professional.

Please feel free to get in touch if you would like to discuss further.

Warm regards,
